

Relaxation of mask wearing after March 13, 2023

Thank you for always using Hotel Famitic Nikko Station.

From March 13, 2023, the Ministry of Health, Labor and Welfare has announced a policy of entrusting individual judgment to the wearing of masks as a countermeasure against the new coronavirus, regardless of whether it is indoors or outdoors.

Based on this decision, we will take into consideration the business conditions of the facility and take measures according to the actual situation. We ask that all visitors to the hotel wear a mask. Also, please continue to cooperate with temperature measurement and hand disinfection when entering the building. Please cooperate with cough etiquette and take care so that everyone can use it comfortably.

Regarding the wearing of masks by employees, we will wear them as a measure to ensure the safety of our customers and prevent infection.

We will continue to work to prevent the spread of infection while responding to requests for cooperation from the national and local governments. We appreciate the understanding and cooperation of our customers.
